

NON-PLANT FOOD PRODUCT GUARANTEE

% BY WEIGHT

Fulvic Acid.....	30%
Inert Ingredients.....	70%

Information concerning the raw materials composing this product can be obtained by writing to Nutrient Technologies, L.L.C., 5415 Lake Howell Rd. Suite 177, Winter Park, Florida 32792.

CROP RECOMMENDATIONS

In combination with soil-applied liquid fertilizers: Use **Connector™** at a rate of 1- 2% of the total fertilizer solution or ½-1 gallons per acre, whichever is greater. In blends, **Connector™** should be added to the water before adding any fertilizer solutions. The mixing order should be water, **Connector™** and then the fertilizers..

Application in irrigation water: **Connector™** can be applied with irrigation water in any irrigation system, alone or mixed with fertilizers. Apply ½ to 1 gal/ac. of **Connector™** in the four most critical growth stages of any given crop, such as germination, vegetative growth, flowering, fruit set and fruit development

Foliar application: During plant growth and development make up to four applications of **Connector™** at a rate of 1-2 qts/ac. in combination with foliar fertilizers.

When transplanting, make one application of 1-2 qts/ac. of **Connector™** combined with foliar fertilizers

GENERAL INFORMATION

Connector™ is a concentrated product of very high solubility which contains fulvic substances from vegetable origin that may increase soil cation exchange capacity improving nutrient availability.

PRECAUTIONS

Harmful if swallowed. Avoid contact with skin, eyes or clothing. In case of contact, immediately flush skin or eyes with water for at least 15 minutes.

Connector™ is compatible with most insecticides, fungicides, herbicides and acid, neutral, and alkaline fertilizers, so it can be used in combinations in foliar applications or fertigation programs.

Connector™ is not phytotoxic at the recommended rates. When using **Connector™** with other products, add **Connector™** to the water, before mixing in the other products.

DIRECTIONS FOR USE

Connector™ can be used on any crop. It can be applied to the soil through irrigation or foliar applied, mixed with enough water to obtain thorough foliar coverage.

For fertilizer rates suitable to your geographical area or the maximum allowable non-nutrient application rates per acre, consult a trained soil specialist/Certified Crop Advisor or contact Nutrient Technologies, L.L.C., 5415 Lake Howell Rd. Suite 177, Winter Park, Florida 32792
